

Level Five

Exploring the Energetics of Consciousness with Horse

Levels One through Four of the Apprenticeship took you up through the chakra system, helping you to heal, open, and cleanse your system while dropping deeply into the wisdom of horse and learning the skills to guide others. We are thrilled to be announcing a brand new program for 2012: Level Five- Exploring the Energetics of Consciousness with Horse.

The eighth chakra center holds the energy of divine love, spiritual compassion, spiritual selflessness and the conscious herd collective. In this center a person evolved beyond the patterns experienced through many lives and the mundane earthy existence into how they can serve humanity, the planet and beyond the planet; how they can influence the change of consciousness itself.

The Level Five EFLC program provides tools and processes to work with the flow of energy in groups, horses, yourself or others, cleanly, without agenda, and with compassion. An awakening of your inherent spiritual awareness and knowing is possible and encouraged. Diving deeper into the sense of “Herd” and community Level Five offers experiences that expand authentic community both with human and horse. This program focuses on guiding one to experience him or herself as a part of a larger community of people and the spirit of horse and offers tools to help others find and create that divine connection with Horse.

Level Five is designed for those who wish to:

- Read the energy dynamics of client, horse and group at a greater level
- Practice tools to align land, space and communicate with horses
- Deepen their spiritual connection to Horse
- Shift limiting beliefs preventing their success with an EFLC business
- Access higher levels of spontaneous creativity in any EFLC activity
- Gain additional hands on practice with the various styles of the seated/integrative session (journey, chakras, Coaching the Vision, performance)
- Expand their 8th chakra capacity through the Way of the Horse and energy tools
- Learn key energy management tools to change reactions and responses from horse or participants in the moment
- Drop deeply into spiritual perception, spiritual wisdom and the ability to create through true spontaneity and presence
- Refinement of Dancing with horses and working with the energy bubble with multiple horses (at the same time)

Requirements:

- Completion of Apprenticeship Program and all fieldwork required to attend this program

Dates: April 27th through May 2nd

Tuition: \$1700
